TextExpander for teams · Start free

Create a free TextExpander team account

See how much time you can save before asking for budget. Create a free team account, share the content you and your colleagues type every day, and let the results make the case.

Your test window: the 30-day preview of paid features. Send your business case before it ends.

What your free team account includes

Team members	Up to 5 people
Active Snippets	5 per person. Save as many as you like.
Paid features	30-day preview at signup
Cost	$0, no credit card

Create your first 5 shared Snippets

1. The answer a colleague asked you for this week
2. Your team's standard greeting, sign-off, or handoff note
3. A policy or process explanation that changed recently
4. Links people hunt for: booking pages, help articles, forms
5. A message with details that change, built with fill-ins

Keep notes for your business case

- [ ] Which shared Snippets get used most
- [ ] One answer you updated once instead of in five places
- [ ] Colleagues who asked to join after the 5 seats filled
- [ ] Snippet expansions and estimated time saved
- [ ] Tools you used it in: email, chat, help desk, CRM, EHR

Set it up in 6 steps

1. Create your free team account with your work email.
2. Create a Snippet Group, share it with your Organization, and add Snippets.
3. Invite colleagues from *Members*. The Snippet Group shared with your Organization will automatically be available to them.
4. Ask each person to try the shared Snippets in the tools they already use.
5. When a detail changes, update the shared Snippet and tell the team it's current.
6. After two weeks, check your stats in the Statistics tab and add them to your notes.
